

Full-Stacked Product Designer with experience creating both physical and digital products. Skilled in user research, rapid ideation, and prototyping. Passionate about developing thoughtful solutions that balance functionality, aesthetics, and business goals. Proficient in industry-standard 2D and 3D design software, with experience leveraging AI tools to enhance design workflows and accelerate innovation.

EXPERIENCE

3D Designer

THACO Group (Full-time) - Automotive Industry

7 months

June 2025 - Present

HCMC, Vietnam

- Design shows, booths, events, exhibitions for THACO's Truck & Bus, and their partnership automotive companies including Kia, Mazda, BMW, Peugeot, and other Stellantis car brands.

- Creating products for advertising and marketing campaigns serving for THACO and its sub-holding companies, including POSM, accessories, gift boxes, awards, trophies, and printed materials.

Industrial Designer

Moon Group (Full-time) - Wood Industry

6 months

Dec 2024 - May 2025

HCMC, Vietnam

- Design F&B products and supplies for hotels, resorts, coffee shops, and restaurants including but not limited to Hilton, New World, Park Hyatt, Intercontinental, and AKUNA.

- Come up with creative, problem-solving designs catering to the unique needs and requirements of clients, develop prototypes for usability, and overlook the production process.

3D Graphic Designer

FG Organization (Full-time) - Healthcare Industry

6 months

May 2024 - Oct 2024

Garden Grove, CA

- Developed high-quality 3D models and realistic renderings for FG's medicinal and care products, contributing to the visual accuracy and appeal of product presentations.

- Collaborated closely with graphic designers and filmmakers to integrate 2D and 3D graphics into advertising campaigns, enhancing the overall impact of visual content.
